NEW QUESTION: 3

Which three statements about SPAN and RSPAN are true? (Choose three.)

- A. Accurate information on unused switch ports helps the administrator keep these ports closed for security risk best practices.
- B. Does not provide specific port data to obtain active and historical port utilization information.
- C. The switch port monitor provides data on network switches by port in use, CPU load and memory used.
- D. It provides specific port data to obtain active and historical port utilization information.
- E. Accurate information on unused switch ports is not necessary.

Answer: A,C,D

Explanation:

The switch port monitor provides data on network switches by port in use, CPU load, memory used, etc. You can even drill down into specific port data to obtain active and historical port utilization information. These reports are integral for meeting compliance needs. As a best practice for safeguarding your network from security risks, accurate information on unused switch ports helps the administrator keep these ports closed.
