Our BL0-100 practice exam dumps pdf and practice exam online will help you achieve your goal.

NEW QUESTION: 1

Which of the following statements describe calculated fields? (select all that apply)

- A. Calculated fields can be used in the search bar.
- B. Calculated fields can be based on an extracted field.
- C. Calculated fields are shortcuts for performing calculations using the eval command.
- D. Calculated fields can only be applied to host and sourcetype.

Answer: B,C

NEW QUESTION: 2

Your network contains an Active Directory domain named contoso.com.

The domain contains the organization units (OUs) configured as shown in the following table.

Users and computers at the company change often. You create a Group Policy object (GPO) named GPO6. GPO6 contains user settings. You need to ensure that GPO6 applies to users when they log on to the kiosk computers only. The solution must minimize administrative effort.

What should you do?

- A. Link GPO6 to OU1 and configure loopback processing in GPO6.
- B. Link GPO6 to OU1 and configure WMI filtering on GPO3.
- C. Link GPO6 to OU1 and configure loopback processing in GPO5.
- D. Link GPO6 to OU4 and configure loopback processing in GPO6.

Answer: D

Explanation:

Group Policy applies to the user or computer in a manner that depends on where both the user and the computer objects are located in Active Directory. However, in some cases, users may need policy applied to them based on the location of the computer object alone. You can use the Group Policy loopback feature to apply Group Policy Objects (GPOs) that depend only on which computer the user logs on to.

NEW QUESTION: 3

- - -

You are the Office 365 administrator for your company. The company has a single office.

You have the following requirements:

You must configure a redundant Active Directory Federation Services (AD FS) implementation.

You must use a Windows Internal Database to store AD FS configuration data.

The solution must use a custom login page for external users.

The solution must use single sign-on for internal users.

You need to deploy the minimum number of servers.

How many servers should you deploy?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: B

NEW QUESTION: 4

Which compensation permissions are typically enabled for human resource business partners?
