The PDF Version: If you are used to reading and writing questions and answers on paper, you can choose the dumps vce pdf files of C1000-118 real exam questions and C1000-118 test dumps vce pdf.

Also, you will do more practices that you are not good at until you completely have no problem, It also applies to choose a C1000-118 quiz studying materials: IBM Cloud Professional Architect v5 for customers.

#### **NEW QUESTION: 1**

DRAG DROP

You are developing a SQL Server Analysis Services (SSAS) cube. You need to reuse a measure group from a different database. In SQL Server Data Tools (SSDT), which three actions should you perform in sequence? (To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.)

**Answer:**

Explanation:

**NEW QUESTION: 2**

A Symmetrix VMAX 40K customer is planning to use Virtual Provisioning and FAST VP for their Microsoft SQL Server Database.

--Thin Pool 1 is a EFD RAID-5 pool configured with 100 GB of free space.

--Thin Pool 2 is a FC RAID-1 pool configured with 300 GB of free space

--Thin Pool 3 is a SATA RAID-6 pool configured with 1TB of free space

--The database server needs four (4) 100 GB LUNs.

Two (2) of the LUNs are mission critical and should never encounter an I/O error because of a thin pool being full.

How should the mission critical LUNs be configured to ensure this?

- A. Bound to Pool 1 and fully preallocated
- B. Bound to Pool 1 and pinned
- C. Bound to Pool 3 and pinned
- D. Bound to Pool 2 and fully preallocated

**Answer: D**

**NEW QUESTION: 3**

Which types of rate schedules should be defined to allow rates to be used to generate financial plans?

- A. Job Labor Rates ScheduleNon Labor Rate Schedule
- B. Resource Class ScheduleLabor Rates ScheduleNon Labor Rate Schedule
- C. ResourceClass SchedulePlanning Rate ScheduleNon LaborRates Schedule
- D. Resource Class SchedulePlanning Rate ScheduleLabor Rates Schedule

**Answer: B**

Explanation:

Defining Rate Schedules

You can define four types of rate schedules. The following table lists the four types of rate schedules and indicates how you can use each rate schedule type in Oracle Projects.

Note: \*If you select the option to use planning rates, then you can choose the cost and revenue rate schedules to use to generate amounts. If you do not select the option to use planning rates, then Oracle Projects automatically chooses the rate schedules that are used to calculate actual cost and revenue (bill) amounts.

\*You must specify rate schedules for resource class. When Oracle Projects is unable to determine the actual or planning rates to apply in a calculation, Oracle Projects automatically applies rates from the default rate schedules you specify for resource class.
