Answer:

Explanation:

Explanation

Step 1: Create a PowerShell configuration file

You create a simple PowerShell DSC configuration file.

Step 2: Load the file to Azure Blob storage

Package and publish the module to a publically accessible blob container URL Step 3: Configure the Custom Script Extension on the virtual machines.

The Custom Script Extension downloads and executes scripts on Azure virtual machines.

NEW QUESTION: 2

All of your Business Objects Enterprise services are installed on separate machines. You are able to login to the Business Objects Enterprise system, browse through the contents of the folders and view OLAP Intelligence and Crystal Reports on demand using either the Crystal Reports Advanced DHTML viewer or the Active X viewer. You are not able to schedule Crystal Reports. Which Business Objects Enterprise server component is most likely the cause?

- A. Crystal Reports Job Server
- B. Output File Repository Server
- C. Crystal Reports Cache Server
- D. Input File Repository Server

Answer: A

NEW QUESTION: 3

Which interface cannot be used to access, control, or manage VMware vSphere ESXi 5.0?

- A. CIM
- B. VMware vCenter
- C. SMASH
- D. VMware vSphere API/SDK
- E. VMware CLI

Answer: C

NEW QUESTION: 4

Your company has a main office and a branch office.

You have a deployment of System Center Configuration Manager (Current Branch).

The main office has a software update point. Currently, all client computers receive Microsoft updates from the main

office.

You need to ensure that the computers in the branch office receive updates from a local server. The solution must meet the following requirements:

- * Ensure that the updates are managed by using Configuration Manager.

- * Ensure that the computers in the branch office scan for updates against a local catalog.

What should you deploy to the branch office?

- A.** a software update point, a distribution point, and a reporting services point
- B.** Windows Server Update Services (WSUS), a service connection point, and a management point
- C.** Windows Server Update Services (WSUS), a software update point, and a distribution point
- D.** a software update point, a service connection point, and an Application Catalog website point

Answer: C
