And we provide varied functions to help the learners learn our CMT-Level-I study materials and prepare for the exam, Working in the IT industry, what should you do to improve yourself?

NEW QUESTION: 1

A Database Specialist must create a read replica to isolate read-only queries for an Amazon RDS for MySQL DB instance. Immediately after creating the read replica, users that query it report slow response times.

What could be causing these slow response times?

- A.** Long-running statements on the master
- B.** New volumes created from snapshots load lazily in the background
- C.** Overload of a single replication thread by excessive writes on the master snapshot is lazy loaded If the volume is accessed where the data is not loaded, the application accessing the volume encounters a higher latency than normal while the data gets loaded
- D.** Insufficient resources on the master

Answer: B

NEW QUESTION: 2

Which of the following statements is false?

- A.** Up-front analysis as part of a top-down SOA project delivery approach helps reduce the eventual governance burden of services.
- B.** Alternative approaches exist that provide a compromise between bottom-up and top-down SOA project delivery approaches.

C. The governance burden of services is not impacted by the SOA project delivery approach.

D. The bottom-up approach to SOA project delivery results in less up-front impact, but will usually increase the eventual governance burden of services.

Answer: C

NEW QUESTION: 3

Consider the following flow in an object:

Which of the following statements are true?

A. There should be an intelligent wait stage after the start stage and after any stage that cause the application we are interfacing with to change

B. There should be a wait stage after every stage in this flow (i.e. after the navigate, read, write stages)

C. If during testing in object studio this flow works no additional wait stages should be added as they will slow the interface down.

D. There just needs to be a wait stage after the start stage to correct this action.

Answer: A
