**NEW QUESTION: 3**

You are responsible for the company network and provide technical support for your company. You are in charge of offering service for a customer named Alex. In Alex's company, there are 300 computers. Besides, only full packaged product (FPP), OEM, and Microsoft Open License licences have been purchased by his company. Now you get an order from the CIO, according to his requirements, you are asked to have an accurate reconciliation of license entitlements and software inventory performed for Alex's company. In addition, when you achieve that goal, you must use as little administrative effort as possible. In order to accomplish your tasks, what action should be performed?

- A. To accomplish your tasks, an automated inventory should be performed and the purchasing guidelines should be updated.

- B. To accomplish your tasks, information should be collected from Microsoft Software Inventory Analyzer (MSIA) and the results should be compared to the proof of licenses (POLs).

C. To accomplish your tasks, a manual inventory should be performed and the results should be compared to the proof of licenses (POLs).

D. To accomplish your tasks, information should be collected from eOpen and the purchasing guidelines should be updated.

**Answer: B**
