For an organization that encourages sales activities using mobile devices, which of the following should be the MOST important security requirement?

- A. Remote wipe capabilities
- B. Password logic enhancement
- C. User operation logging
- D. Periodic device monitoring

Answer: A

NEW QUESTION: 4

HOTSPOT

You are a senior desktop administrator for Contoso, Ltd. You receive a service desk ticket that requires you to resolve a computer's performance problems. The ticket included the following description of a performance problem:

"My computer slows down throughout the day. It does not occur consistently, but it does happen every day. The computer becomes slow. I have to reboot the computer before I can start working again, sometimes powering off by hand."

You verify that there are no driver issues in device manager, or unauthorized software on the computer. You also verify that there is not defragmentation on the hard drive as well.

You install the Windows Performance Toolkit (WPT) and configure Windows Performance Recorder (WPR) as shown in the following exhibit

The results of the Windows Performance Recorder are shown in the following exhibit.

What should you conclude, based on these exhibits? (For each of the following statements, select Yes if the statement is true. Select No if the statement is not true. Each correct selection is worth one point.)

Answer:
