Based on the attitude of being responsible for all of our customers, our company will offer the renewal version of our SYO-501 pass-king materials for all of our customers for free during the whole year after purchasing.

Aside from our CompTIA SYO-501 Dumps PDF, we invest in your best practice through Online Test Engine, High Efficiency with our SYO-501 dumps torrent, If you are willing to purchase SYO-501 from Sfjbs's updated audio exam or SYO-501 updated simulation questions, you can download the SYO-501 CompTIA updated demo and make it sure that you are buying the best material.

The most convenient version, PDF version, Once the instructions or the orders from the customer are given to our staff, the SYO-501 quiz torrent materials will be sent to you immediately.

NEW QUESTION: 1

You are the administrator for a SQL Server 2014 instance that stores the data for an online transaction processing sales system.

The company takes full backups every week; differential backups on the days with no full backups; and hourly transaction backups. These backups are stored on a backup server in the company's data center.

Every week, the company places the full backup on a tape and sends it to a third-party backup storage system.

The company is worried that a disaster might occur that could destroy their computer center and cause them to lose orders.

You need to determine the best method for providing the smallest amount of data loss and downtime without leasing or purchasing additional physical locations.

What should you do? More than one answer choice may achieve the goal. Select the BEST answer.

A. Put the differential backup on tape and send it to the

third-party backup storage system.

B. Use the Microsoft SQL Server Backup to Microsoft Windows Azure Tool to direct all backups to a different geographical location.

C. Set up SQL Server Always On with a SQL Azure database as a replica.

D. Set up SQL Server Always On by using a SQL Server on a Windows Azure Virtual Machine.

Answer: B

Explanation:

SQL Server 2012 was the first version to provide the ability to back up databases to the Cloud, and SQL Server 2014 improves on the process.

Microsoft SQL Server Backup to Windows Azure Tool enables backup to Windows Azure Blob Storage and encrypts and compresses SQL Server backups stored locally or in the cloud.

NEW QUESTION: 2

IT administrators are implementing a security solution that monitors network traffic for suspicious activity. The solution must be able to detect and alert on malicious traffic. Which of the following is the most appropriate solution?

A. VLAN (Virtual Local Area Network)

B. Intrusion Detection System (IDS)

C. Firewall

D. Network Access Protection (NAP)

Answer: B

Explanation:

Intrusion Detection System (IDS):

IDS is a security technology that monitors network traffic for suspicious activity and alerts administrators. It is designed to detect and alert on malicious traffic. IDS can be implemented in a variety of ways, including network-based, host-based, and network-based with host-based. IDS can be used to detect and alert on a wide range of threats, including malware, denial of service, and data theft. IDS can also be used to detect and alert on policy violations, such as unauthorized access to sensitive data.

NEW QUESTION: 3

Refer to the exhibit.

Your customer is calling about their MetroCluster environment. They have provided you with the output of the metrocluster interconnect adapter show command.

Referring to the exhibit, which statement is correct?

A. The InfiniBand interconnect is not used in MetroCluster.

B. For all MetroCluster configurations, this is expected output.

C. The InfiniBand cables should be connected in this configuration.

D. This is a 2-node MetroCluster.

Answer: B
